-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claim 1 is objected to because of the following informalities: it is unclear whether the Applicant wishes to have the word "discrete" added or deleted in line 8 of the instant claim because of the bracket [] symbols. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 4, 8-11, 15-19, 23-27, and 31-33 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Inoue, USPN 5,752,881.

See figure 2 for the reel and see col. 6:55 for the two velocities. Note that the outer portion has the discrete symbols and the inner portion is a continuous graphical element.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 5-7, 12-14, 20-22 and 27-30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Inoue, USPN 5,752,881.

Re. claims 5, 6, 12, 13, 20, 21, 28, 29: It is an obvious design choice to one of ordinary skill in this art to provide a particular theme for a particular slot machine; in order to fulfill a customer's preference of tastes or the like.

Art Unit: 3713

Re. claims 7, 14, 22, 30: Absent a showing of criticality, it is obvious to one of ordinary skill in this art to convert a stepper motor slot machine into a video slot machine. Both are deemed art recognized equivalents in this art.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection. The instant Examiner has provided better references to reflect the limitations of the claimed inventions.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The instant Examiner is providing Inoue, 5,395,111; Okada, 5,152,529; and Takeuchi et al., 6,086,066, which appear closer to the claimed invention presented for examination.

As a result of the new grounds of rejection, because of a new search strategy this Office action is being made a Second action **NON-FINAL**.
